# WEST MARSH SAFER STREET PROJECT

The West Marsh of Grimsby have been allocated Home Office funding as part of the Safer Streets Initiative via the Office of Police and Crime Commissioner. The Aim of the project is to reduce serious acquisitive crime such as burglary. In order to achieve our aims the Safer Street team will deliver the following to the West Marsh area.

- **Additional Street Lighting**
- **Additional CCTV cameras**
- **Target hardening to vulnerable properties**
- **Vehicle recognition cameras (ANPR)**
- **Listening and reacting to resident concerns**

The West Marsh of Grimsby has been allocated Home Office funding as part of the Safer Streets 2 Initiative via the Office of Police and Crime Commissioner. The project aims to reduce serious acquisitive crime such as burglary and make the streets safer for all.

The project is supported by the local authority, Humberside Police, Humberside Fire and Rescue, NSPCC, and other partners agencies to deliver the work.

The funding will enable the project to provide additional street lighting, permanent CCTV cameras, vehicle recognition cameras and other security measures such as alley gates.

The great news is in addition to these street-based improvements residents are being invited to have a personal home security review which could lead to extra security equipment being fitted all free of charge.

This could include replacing locks, fitting external security lights and alarm systems.

The project runs until March 2022 and team members along with volunteers have already visited over 450 homes with many residents already signing up for the scheme.

Funding has also been set aside within the project to allow residents or community groups to submit bids to help in their own street.

If you are interested in finding out more about the scheme, simply drop into the West Marsh Community centre located down Beeson Steet or telephone 01472 269230.

### **About the Fund**

This grant scheme has a total of £20,000 to support a specific area within the West Marsh Ward of Grimsby and accepts applications from voluntary, community and not for profit organisations in North East Lincolnshire (ideally experienced in delivering services in that specific area) that can clearly demonstrate how their project contributes to the following:

#### **1. Target Area of Benefit:**

Projects must impact the specific geographical area within West Marsh Ward covered by parts of the Lower Super Output Areas **E01013221/E01013222/E01013219**. The target area is outlined in blue on the map below, this being the streets surrounded by and including Earl Street; Lord Street; Boulevard Avenue and Macaulay Street.

# Together for Childhood

With the right support at the right time, every child can grow up healthy and happy. Schools, community groups including West Marsh Community Centre, Humberside Police, NSPCC, Health, the Council, and many others are working together, with people in the East and West Marsh to test new ideas and learn about what works to help families as soon as they need it.

Prevention in Schools – all primary schools on the West Marsh have a Together for Childhood link worker to provide an additional opportunity to hear the voice of children, which is then brought back to the partnership to discuss how we respond and ensure we are meeting the needs that children are telling us about. For example, link workers have described children in schools speaking about bereavement and loss – of family, friends (house moves) and pets. We are learning about how this is impacting on children.

Our parent outreach work and sharing community asset information with schools for them to give to families ensures that families know what support is available and how to access it from their own community, helping them to thrive. As a partnership, we have created a 'what's on in West Marsh' which was shared on social media and went in school book bags before the end of term...did you receive yours?

What's next – our schools work can include parent drop-in's, coffee events, 1:1 support to children and their families and group work for children and parents. If you would like to get involved, know more or are interested in giving us some more ideas on how we can help you and your community please let us know by contacting Lisa Smith 01472 803500 [lisa.smith@nspcc.org.uk](mailto:lisa.smith@nspcc.org.uk) or dropping in to West Marsh Community Centre and sharing your ideas with Alan Burley.
