Subject: Freedom of Information request - Humberside Police Chief Constable gets two year contract extension and 10% pay rise

Dear Humberside Police and Crime Commissioner,

Quoted from Hull Daily Mail article, 20 May 2019

<https://www.hulldailymail.co.uk/news/hull-east-yorkshire-news/police-chief-contract-extension-humberside-2920589>

(Humberside Police chief Lee Freeman gets two-year contract extension and pay rise)

"A recent Her Majesty's Inspectorate report rated the force as 'good' across all areas of inspection for the first time in its history."

"The recent HMICFRS inspection report also clearly shows the achievements made and that there is potential to improve even further due to the changes instituted by Lee and his team"

Recent events clearly show that government inspectorate reports are not representative of an organisation's actual standards (see the Independent) "NHS and care regulator missed care home abuse of vulnerable patients on multiple occasions"

<https://www.independent.co.uk/news/health/abuse-learning-disability-autism-care-home-whorlton-hall-cqc-nhs-a8927316.html>

"Whorlton Hall was still rated "good" following an inspection into whistleblowing concerns by the [Care Quality Commission] in March 2018. Staff also visited the following July and this April – less than a month before the footage was broadcast"

How much weight did the recent Her Majesty's Inspectorate report carry in respect of the Police and Crime Commissioner's decision to extend the Chief Constable's contract by two years and hand out a ten per cent salary increase?

Yours faithfully,
